Summary:

The Senior Systems/Network Administrator, as part of the Technology Infrastructure Team, plans, implements, maintains, and supports the day-to-day operation of computer systems and networks across the organization ensuring secure and reliable performance. This role requires the ability to evaluate business needs and translate them into technology solutions. While primarily concerned with enterprise-wide technical resources, duties also include some direct stakeholder interaction. The successful candidate must balance technical skills with a big-picture view of how the organization uses technology infrastructure.

Essential Duties and Responsibilities of Senior Systems/Network Administrator include the following:

- Collaborate and provide expertise and mentorship to other members of the Infrastructure Team.
- Evaluate needs, plan, implement, and maintain servers both physical and virtual.
- Manage LAN/WAN environments.
- Manage and monitor datacenter and network resources such as firewalls, switches, servers, SAN, backup systems, etc.
- Maintain and test backup and DR processes.
- Manage Active Directory and Group Policy.
- Log monitoring and troubleshooting issues.
- Provide enterprise application support.
- Create, maintain, and update documentation, policies, and procedures.
- Coordinate system and network activities with the entire Technology Department.
- Communicate and collaborate with other areas of IT and business units to find solutions to technology needs.

Desired Qualifications / Skills / Abilities of Senior Systems/Network Administrator:

- 6 years' experience in systems and networking.
- Experience working as a team leader and mentoring colleagues.
- Experience working with virtualized environments, preferably VMWare.
- Knowledge of dynamic scripting or interpreted languages, e.g., Bash scripting, Perl, python.
- Experience with Windows Server including PowerShell scripting.
- Experience managing Linux environments.
- Experience managing MS Azure / O365 a plus.
- Solid writing skills.
- Analytical and problem-solving skills.
- Excellent organization and interpersonal skills.

Benefits Include:

- 401(k), 401(k) matching
- Health Insurance (Choose from 5 plans)
- Dental insurance
- Flexible spending account
- Life insurance and Universal Life Insurance
- Long-term and Short-term Disability Insurance
- Paid time off
- Vision insurance
- Pet Insurance
- Wellness Program
